

Geo-Technology Associates, Inc. (GTA) is currently seeking a **Wetland Scientist** with 1-4 years of experience to join our growing team of professionals in our Abingdon, Maryland office. Join a dynamic group that supports both field and office tasks in the Natural Resource field throughout the mid-Atlantic region.

ABOUT GEO-TECHNOLOGY ASSOCIATES, INC.

Geo-Technology Associates, Inc. (GTA) was incorporated in 1985 and currently has 21 offices in MD, DE, VA, PA, NJ, OH, NC, SC, FL and TN. The firm provides services to commercial, residential, institutional, industrial, and energy clients; government agencies; and architects, engineers, and contractors. With more than 500 engineers, geologists, scientists, technicians, and support personnel, GTA focuses on geotechnical services such as subsurface exploration, geotechnical and foundation engineering, groundwater resource and wastewater disposal, construction observation and materials testing, environmental due diligence services from Phase I Environmental Site Assessments through management of remediation for contaminated water and soil, and natural resource consulting services ranging from natural resource inventories to federal and state permit processing. GTA nurtures a cooperative spirit with clients through responsive communication.

WETLAND SCIENTIST RESPONSIBILITIES

Primary responsibilities will include a mix of field investigations, data analyses, report writing, and permit application preparation. Wetland scientist field work includes wetland delineations, wetland assessments, locating wetland flags with handheld GPS units, soil characterizations, performing botanical and wildlife surveys, mitigation monitoring, and forest stand delineations. As a member of GTA's natural resource group, wetland scientists also coordinate with clients and engineers to prepare wetland delineation reports and plans, forest conservation plans, wetland and stream mitigation plans, and wetland permit applications. Candidates with experience in performing wetland delineations or knowledge of mid-Atlantic flora and fauna and wetland science are preferred

JOB REQUIREMENTS

- BS Degree in environmental science, biology, natural resources or related field.
- 1-4 Years of related experience, including field work
- GPS, GIS, and AutoCAD experience preferred but not required
- Excellent written and verbal communication skills
- Ability to maintain and develop client relationships
- Willingness to work independently, including field work
- Job requires travel to job sites, both in-state and out-of-state

BENEFITS: We offer a comprehensive benefits package which includes:

- Competitive Salary and Paid Time Off
- Yearly bonus potential
- Medical, Dental, Vision, Health Savings Account, Flexible Spending
- Life Insurance, Short and Long-Term Disability Insurance
- 401(k) with Company Match
- Educational Assistance Program and much more

TO APPLY: Please send a resume to Pam Blackwell at pblackwell@mragta.com and put "Staff Wetland Scientist Opportunity" in the subject line.
